Summary of Qualifications

Experienced Frontend Developer with over 7 years of professional experience, specializing in **React** and **TypeScript** for the past 3 years. Proficient in building and managing scalable UI components, optimizing web performance, and integrating front-end and back-end systems. Adept at working with modern frameworks like **ReactJS**, **TailwindCSS**, and **NodeJS**, with a strong foundation in full-stack development. Demonstrated expertise in delivering mobile-responsive, user-friendly web applications, and maintaining high code quality in collaborative environments.

Work Experience

Software Engineer - UI

September 28, 2020 - Current

DNAMicro Software, Inc. – St. Moritz Road, Gorordo Ave., Cebu City

- Developed UI components using **React**, **TypeScript**, **Tailwind CSS**, and documented them with **Storybook** for testing.
- Managed monorepo using **Turborepo** for reusable components and published to a local private NPM registry with **Verdaccio**.
- Automated package versioning with **changesets CLI**.
- Integrated backend **APIs** to support front-end functionalities.
- Assisted the marketing team in maintaining old **WordPress** websites.

Fullstack Web Developer

June 3, 2019 - August 25, 2020

Human IQ (formerly SynergyTS) – Unit 602, 6th Floor, Ayala Life - FGU Building, Cebu Business Park, Cebu City

- Revamped old **WordPress** websites using **GatsbyJS** to improve speed and **SEO**.
- Developed an e-commerce food ordering website with **WooCommerce**.
- Collaborated on building portal applications with **ReactJS** and **NodeJS (Express)**.
- Managed **WordPress** websites and domains with **Plesk Obsidian**, performing regular updates on plugins and databases.

Web Developer

February 28, 2018 - May 31, 2019

eLink Systems & Concepts Corp. – Samar Loop, Cebu Business Park, Cebu City

- Developed **WordPress** websites from **PSD** to mobile-friendly sites, utilizing theme builders like **Elementor** and **Divi**.
- Created clean interfaces and intuitive interactions in collaboration with designers.
- Developed an internal project tracker app using **VueJS** and **Firebase**.

Junior Developer

February 13, 2017 – February 23, 2018

Binary Ideas Creative Solutions – F. Ramos Ext., Capitol Site, Cebu City

- Developed and maintained **WordPress** websites.
- Maintained **Laravel** applications.

- Worked closely with senior developers, gaining advanced coding skills.

Back-end Developer

July 7, 2016 – January 27, 2017

Biz1 Global Solutions, Inc. – 3rd Floor, Lao Building, Arnaiz Avenue, Makati City

- Maintained ERP systems using **Odoo/OpenERP, Python, and XML**.
- Created Odoo QWeb reports for data visualizations.
- Contributed to enhancing the system's UI/UX and responsive application development.
